Profile Summary

Lecturer in Advanced Imaging Technology with the Medical Imaging Science Discipline, SMHS, University of Papua New Guinea for the last 10 months. Previously a Manager and enior Medical Imaging Technologist (MIT) with involvement in Community Project Management in Health and Clinical Leadership with more than 10 years of Hospital Based working experience. I am great at working with a team of intellectual like-minded individuals whilst respecting and appreciating diversity in different cadre of workforce in the health system. I am self-reliant, goal oriented and welcome challenges as an opportunity to learn and enhance my experience. My technical competencies include but not limited to managerial responsibilities and undertake task in;

- Managing, coordinating and overseeing the Radiology Services in New Ireland Province for the last 4 years.
- Providing clinical service in the areas of Ultrasonography, Conventional Radiography and Special Radiography in the last 9 years.
- Leadership roles in facilitating and coordinating Professional Training of Healthcare Middle Managers through DFAT-WLI Program. Coordinate, Plan and Implement Covid-19 Activities and Programs for Covid-19 Response in New Ireland Province.

As an Academic, I am keen on research and technology and willing to learn new advancement in Medical Imaging. I have a particular vested interest in Ultrasonography and it's training for our upcoming technicians and Sonographer. I am a Christian and I uphold my faith through guiding principles in my conduct and professionally portray ethical consideration in my profession and work.

I aspire to excel in every aspect of my life.
